

Aria Smart Plug — Owner's Manual

Aria Home · SKU ARIA-PLUG · plug · \$24

This manual covers the Aria Smart Plug (model ARIA-PLUG) only. Other Aria products have their own manuals; procedures and error codes are not interchangeable between models.

1. Specifications

Load	15 A resistive, 1,800 W max
Radio	Zigbee 3.0 — also acts as a range repeater for sensors
Energy	reports watts and kWh

2. In the box

Smart Plug.

3. Setup

1. Plug in; the light blinks green; add it in the app under Plug.

4. Status light

Green: on.

Off: off.

Green blink: pairing.

5. Power and battery

Aria Smart Plug: 120 V AC passthrough.

6. Troubleshooting

Aria Smart Plug — Turns off by itself. Overload protection trips above 15 A; do not run a space heater and another appliance on one plug.

Aria Smart Plug — Energy reading is zero. Some LED bulbs draw under 1 W and read as zero; this is normal.

7. Error codes

Aria Smart Plug error PL-01: Overload — unplug the load and press the button to restore.

8. Factory reset

To factory reset the Aria Smart Plug: Hold the button for 8 seconds until the light blinks green rapidly.

9. Warranty and compatibility

The Aria Smart Plug carries a two-year standard warranty covering manufacturing defects, from the delivery date. Unwanted returns follow the Aria Home returns policy: 30 days from delivery for the Aria Smart Plug (most devices have a 30-day window). Damage caused by the customer is handled as a warranty repair, not a refund.

Works with: Aria app, Aria Hub (required), Google Home, Amazon Alexa.
